CURRENT PROJECTS (Page 1 of 2)

- **Project Name:** Marston Treatment Plant Solids Handling Facilities (SP 04639A)
Location: Marston Treatment Plant, 6100 W. Quincy Ave.
Contractor: Bosco Constructors, Inc. (303-799-1221)
Project Manager/Engineer: Michael J. Leister (303-628-6661)
Resident Engineer: Robert Reed (303-324-8578)
Completion Date: September 15, 1998
Impact on traffic and neighborhood: Minimal.
Purpose: To be able to economically dispose of solids that result from water treatment at the Marston Plant by removing the moisture from the solids before hauling it to Foothills for ultimate disposal. Historically, these solids have been returned to Marston Lake causing a buildup in the lake that affects the quality of the water over the years.

- **Project Name:** Construct Chatfield Pump Station & Reservoir (SP 04723A)
Location: 8371 Continental Divide Road in Jefferson County
Contractor: Grimm Construction Co. (303-791-3600)
Project Manager: John H. Bambei, Jr. (303-628-6669)
Project Engineer: James W. Root (303-628-6659)
Resident Engineer: Ken Lochner (303-973-0809 or 303-973-0905)
Completion Date: June 15, 1999
Impact on traffic and neighborhood: Minimal, away from homeowners.
Purpose: A Participation Agreement with Southwest Metropolitan Water and Sanitation District (SMWSD) to provide water for SMWSD.

- **Project Name:** Gross Dam & Reservoir Garage & Office - SP 04729A
Location: Gross Reservoir
Contractor: Steveson Enterprises, Inc. (303-430-0116)
Project Manager/Engineer: Michael B. Goldhammer (303-628-6617)
Resident Engineer: Victor Sanchez (303-324-8583)
Completion Date: July 28, 1998
Impact on traffic and neighborhood: None, Board property.
Purpose: To update buildings.

- **Project Name:** Install Surge Relief Valve at 56th Ave. Reservoir & Pump Station & To Install Butterfly Valve Electric Actuators on Conduit No. 94
Location: At 56th Ave. Pump Station; 45th Ave. & Wolff St.; Regis Blvd. And Grove St.; and Pecos St. and W. 52nd Pl. (SP 05092A)
Contractor: Harrison Western Construction Corp. (303-234-0273)
Project Manager: John H. Bambei, Jr. (303-628-6669)
Project Engineer: James Root (303-628-6659)
Resident Engineer: Joan Funk (303-808-5791)
Completion Date: July 1, 1998
Impact on traffic and neighborhood: Minimal
Purpose: To provide surge relief for Conduit No. 94 and Conduit No. 28. The electric valve actuators will provide a quicker response time in the event of pipe failure of Conduit No. 94.

PROGRAMS & PROJECTS (Cont.)

CURRENT PROJECTS (Cont.)

- **Project Name:** Conduit No. 74, 3rd & 4th Sections (SP 05096A)
Location: From approximately 300 feet south of Andrews Drive in Chambers Road, continuing north to 48th Avenue, east on 48th Avenue to Picadilly Road, then north on Picadilly Road to 56th Avenue where it ends at the connection to Conduit No. 93.
Contractor: ERS Constructors, Pipeline Division of TIC (303) 791-7473
Project Manager: John H. Bambei, Jr. (303-628-6669)
Project Engineer: Kenneth Morgan (303-628-6810)
Resident Engineer: Joan Funk (303-808-5791)
Completion Date: May 1, 1999
Impact on traffic and neighborhood: Minimal except for a short stretch in Chambers Road.
Purpose: To supply water for new development in the area and to provide second feed to DIA.
- **Project Name:** Moffat Treatment Plant Disinfection Facilities Improvements (SP 05093A)
Location: At the Moffat Treatment Plant, 10920 W. 20th Ave.
Contractor: Ellsworth-Peck Construction Co. (801-756-0404)
Project Manager: John H. Bambei, Jr. (303-628-6669)
Project Engineer: Jerry Romero (303-628-6663)
Resident Engineer: Ken Lochner (303-238-7219)
Completion Date: August 1, 1999
Impact on traffic and neighborhood: Increase in construction traffic, some increase in noise due to the construction, increase in the amount of construction equipment stored on site. The normal work hours will be from 7:00 a.m. to 4:00 p.m., Monday through Friday.
Purpose: Upgrade the disinfection system to more effectively accommodate compliance with the new Safe Drinking Water Act.
- **Project Name:** Tower Road Main Improvements and Furnish & Install Non-Potable PVC Water Mains (SP 05109A)
Location: In Tower Road between 56th Ave. and 72nd Ave.
Contractor: Wycon Construction Co. (303-469-1768)
Project Manager: John H. Bambei, Jr. (303-628-6669)
Project Engineer: Kenneth Morgan (303-628-6810)
Resident Engineer: Joan Funk (303-628-6612)
Completion Date: September 11, 1998
Impact on traffic and neighborhood: Airport traffic will be detoured during construction.
Purpose: The City & County is widening and improving Tower Road so Denver Water is making improvements and adding stubout for future development so to avoid road cuts later.
